What you Will Learn

This course introduces an examination of the field of criminology, including its theories, basic assumptions, and definitions. More specifically, the course will focus on the foundations of criminology and criminological thought, explanations of criminal behavior (criminological theories), and special topics within the field of criminology. The primary goal of this course is to provide students with the preliminary tools necessary to critically evaluate criminal behaviors and common explanations for such behaviors. To accomplish this goal, particular emphasis will be placed on using an empirically based approach to understanding the underlying causes of criminal behavior.

Course Objectives

The main objectives of this course are:

1. To be able to describe how crime is measured
2. To be able to identify changes in criminal behavior over time
3. To be able to discuss general classifications explanations of crime
4. To be able to identify elements of a good criminological theory
5. To be able to discuss major shifts in criminological theories over time
6. To be able to describe the methodological approaches used in criminological research
7. To be able to evaluate research designs used in criminological research
8. To be able to identify key criminological theorists
9. To be able to identify limitations of key criminological theories
10. To be able to distinguish between key criminological perspectives

You need to make sure that you have stable and reliable access to the Internet, as well as the ability to view and read PDF files, watch streaming audio/video, and use word processing programs. If you do not have a reliable Internet connection at home, you need to set aside time in your schedule to access the online material from a computer with a sufficient connection speed. Not having appropriate access to Internet/computer resources is not a valid excuse for late assignments or incomplete materials.

Course grades will be based on the following:

Discussion Briefs (5):	150 points (15%)
Online Quizzes (5):	100 points (10%)
Exam 1:	250 points (25%)

Course Structure and Format

This is a traditional, in-person course with topics organized around the weeks of the semester. Your overall grade in the class will be based on your performance on three separate components:

Discussion Briefs

On Monday of each week a brief is due, I will post a discussion question or prompt and you will be expected to submit a response by the following **Friday at 11:59 pm EST** on Canvas. Depending on the content covered and the questions/prompts supplied for each week, responses are expected to vary in length, but should consist of **at least 2-3 paragraphs** to adequately engage the provided questions/prompts. Discussion briefs are worth 30 points each for a total of 100 possible course points (30 points × 5 briefs = 150 course points).

Discussion briefs are expected to meet the following requirements in order to receive full credit:

1. The brief must effectively address all parts of the discussion question/prompt

2. The brief must ***cite and reference*** all assigned readings and any other materials referenced in the brief
3. The brief must convey that you have read all of the required readings for that week
4. Briefs must be free from grammatical errors, well-written, and proofread prior to submitting
5. The brief should be submitted before the deadlines listed above

Discussion briefs that meet these minimum requirements will receive full credit. Briefs that do not meet the minimum requirements will receive a lower grade. Discussion briefs cannot be made up and late assignments will not be accepted. A grading rubric for discussion briefs will be provided to give a more direct example of these expectations, how briefs will be graded, and how students can receive full credit. Briefs will be submitted on Canvas as a Word (.doc or docx) document.

Online Quizzes

Five quizzes will be administered on Canvas throughout the semester. Each quiz is worth 20 course points for a total of 100 overall points (20 points × 5 quizzes = 100 points). Quizzes typically consist of 10 practice exam questions in multiple choice and true/false format. All quizzes are due by **Friday at 11:59pm EST** of the week they are assigned, and all due dates are listed in the course schedule.

Exams

Three exams will be administered throughout the semester. Each exam consists of 50 multiple choice and true/false questions worth five points each, for a total of 250 possible points per exam (5 points × 50 questions = 250 points). Exams will be administered during class time via Canvas using Honorlock. No outside materials are allowed (i.e., closed note and closed book), the exam must be taken in a quiet environment without any interruptions, and students are not allowed to leave the room during the course of the exam. Cell phones, tablets, laptops, smart watches, and any other electronic devices are not permitted. Finally, all contents of the exam are confidential and should not be copied, recorded, transmitted, retained, or shared by students for any reason. Failing to follow these requirements will be considered as a violation of the FSU Academic Honor Policy and will be reported as such resulting in a 0 on the exam and any additional reprimands determined by FSU. Exams dates are provided in the calendar on Canvas and are also listed in the course schedule.

Policies and Requirements

Course Expectations

You are highly encouraged to attend each and every class meeting. Information will be covered in class that is not in the PowerPoint slides or the assigned readings. If you miss a class meeting, I highly recommend that you borrow notes from one of your fellow students and talk to me and/or the course TA about any additional clarification you may need. I do not post my PowerPoint slides on Canvas and will not provide students who have missed a class with my notes.

In addition, the following expectations will be enforced:

1. All readings are expected to be completed by the assigned date.
2. You are expected to complete all assignments on time.
3. Plagiarism and cheating will not be tolerated. Note the Academic Honor Policy below.
4. Extend courtesy and respect to your fellow classmates at all times. Disrespect or hateful speech of any kind directed toward other students, myself, or anyone else will not be tolerated.
5. If you have any problem or experience any unforeseen circumstances, do not hesitate to contact me. The sooner you inform me of an issue, the more options we have to get it resolved.

6. Except for changes that substantially affect implementation of the evaluation (grading) statement, this syllabus is a guide for the course and is subject to change with advance notice.
7. All work must be original and created for this semester's course.

Grade Change Requests, Extra Credit, Late/Make Up Work and Rounding

I know it is tempting to **request more points** or a change to your grade as we move through the semester. Besides, "it never hurts to ask," right? I've deliberately designed this course to provide you with as many opportunities as possible to achieve the grade you have in mind. There are many, many opportunities for points outside of exams, which gives you far more control over your final grade in the class. With that in mind, I cannot accommodate grade change requests, appeals for more points, or any similar requests. For these reasons, any requests will be ignored, and I will not respond to emails making these requests.

In regard to **extra credit**, I will not provide extra credit to individual students. Any extra credit opportunities will be made available to the entire class, at my discretion, and will be announced via Canvas in full detail. Please do not ask for extra credit. If an extra credit opportunity becomes available, I will announce it to the entire class.

Late work will only be considered or accepted in exceptional circumstances. Specifically, students must 1) notify me within 24 hours of missing the assignment, AND 2) provide me with a university approved excuse for missing the assignment (see the "University Attendance Policy" below for what constitutes a university approved excuse). I may request written documentation for the excuse if necessary. If this procedure is not followed, you will receive a score of zero for the assignment. Any make up exams may consist of entirely of short answer questions and administered using Honorlock.

Grades are **rounded** to the nearest whole number when calculating your final grade. For example, an 89.5 (or greater) will round to a 90, but an 89.4 will round to an 89. This is the only rounding that will take place for this course. I do not round individual assignment, quiz, or exam grades. Any requests for additional rounding or another form of rounding will not receive a response.

University Attendance Policy

Excused absences include documented illness, deaths in the family and other documented crises, call to active military duty or jury duty, religious holy days, and official University activities. These absences will be accommodated in a way that does not arbitrarily penalize students who have a valid excuse. Consideration will also be given to students whose dependent children experience serious illness.

Academic Honor Policy

The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to "...be honest and truthful and...[to] strive for personal and institutional integrity at Florida State University." (Florida State University Academic Honor Policy, found at <http://fda.fsu.edu/Academics/Academic-Honor-Policy>).

While you are encouraged to support one another and work collaboratively when appropriate, plagiarism or other academic dishonesty of any kind will not be tolerated in this class. Incidents of cheating or plagiarism of any type will be rigorously pursued. Any form of academic dishonesty will result in a grade of "zero" for that particular assignment. I reserve the right to screen for plagiarism, including electronic citation checkers (e.g., SafeAssign). For this course, you may be required to submit assignments to SafeAssign. All written materials will become source documents in the SafeAssign database and will be used solely for the purpose of detecting plagiarism.
